

Lead-free

N2 WAVE SOLDERING SYSTEM

TNW33-36EF - N₂

FLIP (Flat Linear Induction Pump) Solder Bath for Lead-free Wave Soldering

SPRAY FLUXER

Advanced full-chamber type Wave soldering system

Flat Linear Induction Pump (FLIP) : Lead-free enabler : Lower operating cost

Electrical power consumption has been reduced (compared to previous TAMURA equipment)

Strong, even application of heat using hot-air preheating.

O₂ density controller fitted as standard.

Advanced next-generation control system.

Special Features
